

ECOM20001 Econometrics 1

Tutorial 1 (Week 1 - Thursday)

Zheng Fan

The University of Melbourne

Introduction

Zheng Fan

- Ph.D student in Economics at Unimelb
- Consultation & Ed discussion board (your **first priority**)
- Email Richard or Marc for administrative issues
- Consult Stop 1 for special consideration
- Email: fan.z@unimelb.edu.au

Before asking any questions, make sure you have gone through the materials on Canvas!

Software

We will be using R for this subject. Make sure you have installed both R-studio and R-console. The detailed instructions are on Canvas.

- R-console: <https://cran.ms.unimelb.edu.au/>
- R-studio: <https://posit.co/downloads/>

R-studio is a working environment which makes R-console easier to access. We will go through some key features of R-studio.

After this class, you should know some basic commands and be able generate some outputs.

Attendance mark

You may be aware that we have 5% mark for attendance.

- To get full attendance mark 5%, you have to participate at least 5 tutorials (1% for each) that you official enrolled.
- If you cannot attend at least 5 tutorials, consult Stop 1 for special considerations.
- Don't send email regarding missing or replacing tutorials, because we have already took those situations into considerations.

If you came late, make sure you have your attendance marked.

Some final words

You may get access to the slides and code on this website (later today):

<https://github.com/zhengf1/2023ECOM1>

Please use these materials with cautious, errors may not be corrected. Please refer to the final solution on Canvas for details.

Please prepare for next tutorial with pre-tutorial questions.
